ABOUT ME

As a Full Stack Web Developer with a BS in Computer Science, I bring a comprehensive skill set in both front-end and back-end development. My experience spans roles at IBM, Andersenlap, ITI, and Warraq Central Hospital, where I have honed my expertise in Python, Django, React, and JavaScript, among other technologies. I thrive in agile environments, leveraging tools like Jenkins, Docker, Kubernetes, and Git to deliver robust, scalable web applications. My passion lies in creating efficient, user-friendly web solutions and continuously learning about new technologies and methodologies.

WORK EXPERIENCE

Full Stack Web Developer

2023 - Present

Freelancer | Remote

- Developed and maintained multiple web applications using Django and React.
- Implemented RESTful APIs and integrated third-party services.
- Optimized applications for performance and scalability.

Back-End Web Developer

2021 - 2022

Andersenlap | Remote

- Built and maintained server-side logic for various applications.
- Collaborated with front-end developers to integrate user-facing elements.
- Utilized Redis for caching and Nginx for load balancing.

software engineer

2020 - 2021

Warraq Central Hospital | Giza, Egypt

- Developed and maintained software solutions to support hospital operations.
- Implemented new features and optimized existing applications.
- · Collaborated with medical staff to understand and address their technological

DevOps Trainee

2020 - 2020

IBM | Remote

- Gained hands-on experience with CI/CD pipelines using Jenkins.
- Worked with Docker and Kubernetes for container orchestration.
- · Assisted in automating deployment processes.
